

## **Clerk's Report**

I took over from John in February earlier this year. John has been supporting and has helped with the accounts submission.

My work within this role has been varied. Some planning applications, helping with the organisation of the removal of the mine. There is still work to do with regards to the war memorial being restored and this is ongoing and in-hand. I look forward to continuing to support the Parish Councillors of Holy Island and feel I am now beginning to get 'up to speed' with all the current projects which are going on.

The yearly accounting audit has been done by Peter Douglas who has approved our accounts. We need to investigate an interest-bearing account for our reserves.
